The opportunity to showcase your products and services in the largest product show in Kansas only comes around once a year. Last year, over 300 of your competitors were there – exhibiting to more than 40,000 of your prime prospects!

Your competitors know that the Home Show is an excellent opportunity to show-case their products and give them face-to-face contact with more prospective customers than any other Wichita show. They also know the Wichita Area Builders Association makes it easy to be an exhibitor, and many of them are preparing now – by taking advantage of free information on how to market their business at the Home Show, and making plans to attend a Free Exhibitor's Planning Seminar. Plus, they benefit from thousands of dollars of promotional advertising through the Wichita Area Builders Association designed to bring people through their doors.

Your customers know about the Home Show, too. They know it's the one place they can go to get the largest window shopping experience in the state and comparison shop to their heart's content. Most of the crowd is made up of couples – so the decision-making team is definitely present.

Your customers and competitors will be there –

...will you?
